EDUCATION

PES University, Bangalore | *Bachelors in Computer Applications*

2018-2021

Related courses: Linux Administration, Scripting, Cybersecurity & Cryptography

EXPERIENCE

Technical Writer/Editor (Threat Intelligence)

April 2024 - Present

Cyble *Bangalore (Remote)*

- Authored technical documentation for proprietary threat intelligence products such as Cyble Vision X and APIs, enabling clients and internal teams to effectively utilize platform data.
- Since June 2024, I have taken over Senior-level documentation tasks for Cyble Vision
- Analyze and interpret data for a broader audience.
- Work on various forms of content, including threat intel reports and news analysis.
- Ensure technical accuracy

Cybersecurity Threat Intelligence Analyst

Dec 2023 - Mar 2024

Saptang Labs *IIT Madras Research Park*

- Worked on internal and external TI reports for government and private clients involving regional or sector threats and specific APTs
- Review and analyze data from various sources such as OSINT/Dark web/common/encrypted platforms and services
- Monitoring of Dark Web, Telegram Channels, IRCs and various online communities
- Closely worked under Product Manager and VP for ad-hoc requests

Associate Threat Intelligence Analyst

Oct 2022 - Oct 2023

ZeroFox *Bangalore*

- Create regular briefings/reports using data from Internal threat findings & sources.
- Working within Publishing Team alongside Collections & Processing team
- Summarizing & Monitoring Cybersecurity Incidents & Threat landscapes involving unreported ransomware attacks (needles), intrusions, CVEs, zero-days, and APT incidents
- Recommending attack mitigation strategies to clients

CERTIFICATION & AWARDS

Google Cybersecurity Professional Certificate | *Google*

2019

Python, Linux, SQL, SIEM (Wazuh), IDS, Assets, Risks & Vulnerabilities

Linux OS | *Illinois Tech*

2023

Course by Kevin Vaccaro from Illinois Institute of Technology on Linux tools, terminal and services

SKILLS

Threat Intel: OWASP Top 10, MITRE ATT&CK, OSINT, TI Lifecycle, threat actor profiling, Kill Chain, Diamond Model, VirusTotal, Any.Run, Elastic, HUMINT and Opsec

Tech stack: Python,.NET, Bash, JavaScript, React.js, Flask

Programming/Scripting: desktop/web app development, web scraping, script automation

Operating Systems: Linux, Windows and Mac OS workflow
